

STRI-PEXAN PHYTO STEM CELL TECHNOLOGY

PROFESSIONAL PRODUCTS

TREATMENT

STRI-PEXAN PHYTO STEM CELL TECHNOLOGY TREATMENT can prolong the longevity of the cells in the basal layer. Highly concentrated power ingredients combined with elaborate transport systems are aimed at stimulating the reproduction of the cells, thought to include several adult stem cells. This is where the active ingredient of the apple stem cells comes into play, gained from a special apple type and used in all products of the STRI-PEXAN PHYTO STEM CELL TECHNOLOGY series. It helps protecting the DNA and counteracts premature skin aging. The result: radiant, firm and youthful skin!

The treatment contains:

MALIC ACID PEELING · 10 ml

NEUTRALIZER · 10 ml

SKIN WAKE-UP · 10 ml

SHAKER MASK · 25 g

FINISHING CARE · 5 ml

Art. no. 225

Unique Selling Points: Energizer for the skin, fights signs of tired skin, the firmness and tightness of the skin are increased

MALIC ACID PEELING

Skin type:	pH:	Emulsion type:
All skin types, treat very sensitive skin carefully, avoid the eye area	3.5	Aqueous solution

pH:	Emulsion type:
Approx. 7.0	O/W emulsion

- Active ingredients:** Malus domestica fruit cell culture extract (apple stem cells), sea water, Regestri™, vitamin C, hyaluronic acid, squalane, ceramide 3, CellActive™-HYDRO, avocado oil
- Properties:** 24h skin care, comprehensive and long-lasting moisture supply, also in the deeper skin cells, smoothing effect, strengthens the skin structure, forms a protective film on the skin
- Directions:** See treatment procedure

STRI-PEXAN PHYTO STEM CELL TECHNOLOGY TREATMENT SUGGESTION

- Cleansing:** Cleanse with Clean & Active according to the skin condition.
- Peeling:** Apply the Stri-PeXan PHYTO STEM CELL TECHNOLOGY MALIC ACID PEELING for deep cleansing with a fan brush and leave to absorb for approx. 3–5 minutes. On sensitive skin the absorption time can be shorter.
- Neutralizing:** Then remove with the Stri-PeXan PHYTO STEM CELL TECHNOLOGY NEUTRALIZER. Apply the NEUTRALIZER with a fan brush, leave to absorb quickly and remove with cotton pads.
- Active ingredient:** Open the cap of the flange bottle, apply the Stri-PeXan PHYTO STEM CELL TECHNOLOGY SKIN WAKE-UP on the skin and massage into the skin for approx. 10–15 minutes. This energizer activates the cell metabolism. The SKIN WAKE UP can cause a tingling sensation on the skin.
- Mask:** Mix the Stri-PeXan PHYTO STEM CELL TECHNOLOGY SHAKER MASK with 100 ml water in the SHAKER (Art. no.: 9018, not part of the treatment) and shake. Apply the foam with a fan brush and leave to absorb for approx. 10–15 minutes. Remove the remnants of the foam first with a spatula and then with warm compresses.
- TIP:** The foam can also be used to perform a massage.
- Finishing care:** Apply Stri-PeXan PHYTO STEM CELL TECHNOLOGY FINISHING CARE at the end and massage into the skin.
